

Nisichawayasihk Noyo Ohtinwak Collegiate Student Code of Conduct

The NNOC Student Code of Conduct sets clear expectations for all students. Our goal is to create a school where everyone feels safe, respected, supported, and ready to learn. Every student has a responsibility to help make NNOC a positive place.

1. Respect & Promote Nihitho Culture

Be proud of your Nihitho culture, language, and identity. Respect Elders, Knowledge Keepers, cultural teachings, and land-based activities. Learn and use the Nihitho language when you can and help keep our culture strong for future generations.

2. Attend & Be on Time

Come to school every day, be on time for every class, stay in your assigned classes, and be ready to learn. Regular attendance and participation are important for earning credits, graduating, and reaching your goals.

3. Show Respect

Respect yourself, students, staff, visitors, and our school. Use respectful words and actions, follow staff directions, respect personal space and belongings, and allow others to learn without disruption. Discrimination or hate speech in any form will not be tolerated.

4. Keep NNOC Safe

Fighting, physical or verbal abuse, threats, bullying, cyberbullying, and harassment are not acceptable. Do not encourage, record, or engage in fighting or bullying. Report serious safety concerns to a staff member. Drugs, alcohol, and weapons are not permitted on school grounds.

5. Solve Problems

Deal with problems before they become bigger. Participate in mediation when asked, listen to others, take responsibility for your actions, and work toward a solution. Once an issue is resolved, do not restart or continue the conflict.

6. Respect Our School & Your Education

Take care of NNOC property, classrooms, equipment, and technology. Come prepared to learn, participate, complete your work, ask for help when needed, and represent NNOC respectfully at school and in the community. Become familiar and abide by all school policies

Be Accountable

Everyone makes mistakes. What matters is how you respond.

Take Responsibility → Fix the Problem → Learn From It → Move Forward

Students may be required to participate in mediation, restorative practices, meetings, behaviour plans, or appropriate consequences when expectations are not followed.
